

# Modernizations & Upgrades

## Extend the value of your existing equipment

Get **prolonged life** out of your older equipment at a **fraction of the price of a new machine** with modernizations and upgrades from R.A Jones and the Coesia North America Customer Service Hub. We offer a comprehensive suite of services to keep your machinery **valuable throughout its lifespan** and **adaptive to new production needs**.

Whether you need next-generation change parts, custom rebuilds, upgrades to the latest control systems, new package design consultations, or you're ready for one of our innovative upgrade kits, our skilled engineers and technicians will always have you up to date.

## Engineered for longevity

**Avoid obsolescence** and keep your aging equipment **like new for years to come**. Our equipment is specifically engineered to be easily modified years after installation to ensure you receive **maximized ROI** from your partnership with R.A Jones.

Our modifications will ensure peak packaging productivity and OEE – not only can we rebuild your machine to original condition, we can also pinpoint areas of enhancement so you can continually benefit from the **latest technologies on a machine built to last decades**.

## Modernizations & Upgrades include:

- Electronic and control system updates
- Redesign consultations for new products and packages
- Rebuilds and next generation parts replacements to keep older machines like new
- Upgrade kits to maximize speed, throughput, and efficiency as your production grows
- Automation upgrades to enhance ease of operation and changeover times

## Discover your upgrade options

Unlock your machinery's **lasting potential** by contacting us at **CustomerServiceNA@Coesia.com**. We look forward to discussing how we can future-proof your production line!
