

# Alterion CL-170

## Delivering maximum results to expanding operations

The Alterion CL-170 is the newest large center, medium-speed end load cartoner from R.A Jones. Built on the same cartoning principles as our Criterion® machines, the Alterion provides proven technology at an unmatched value. It's ideal for co-packers and growing companies with a diverse product mix who need versatility without sacrificing reliability.

## Focused on flexibility

This auto load machine is designed for smooth continuous motion while providing quick and repeatable changeovers to maximize production uptime. Additionally, the Alterion can run a wide range of carton sizes and comes standard with 6.8 feet of handloading area optimized for product flexibility. Need to run bags into a box this month and cracker slugs into a box next month? No problem! And like all R.A Jones equipment, the Alterion CL-170 is backed by the most comprehensive, 24/7 service and support in the industry.

## Additional benefits

- Designed to grow with you: no need to purchase a new machine as your production grows, just add product transfers from R.A Jones.
- High operating efficiency: optimized uptime and low total cost of ownership mean high return on your investment.
- Wide carton range at production speeds up to 170 cartons per minute.

## Carton size range

<b>Carton minimum</b>	5" L x 1" W x 4.25" D (127mm x 25.4mm x 107.95mm)
<b>Carton maximum</b>	10" L x 6.5" W x 14" D (254mm x 165.1 x 355.6mm)
