

# Alterion CL-170

## Delivering Maximum Results to Medium Sized Operations

The Alterion CL-170 is the newest large center, medium speed end load cartoner by R.A Jones. Built on the same principles and proven technology as our Criterion® machines, the Alterion is ideal for companies with a diverse product mix who need flexibility and reliability.

## Focused on Flexibility

This auto load machine is designed for smooth continuous motion while providing quick and repeatable changeovers to maximize production uptime. Additionally, the Alterion CL-170 can run a wide range of carton sizes and comes standard with 7.5 feet of handloading area optimized for product flexibility.

Need to run bags into a box this month and cracker slugs into a box next month? That is not a problem for the Alterion CL-170. And like all R.A Jones equipment, the Alterion CL-170 is backed by the most comprehensive, 24/7 service and support in the industry.

## Additional Benefits of the Alterion CL-170

- Designed to grow with you: no need to purchase a new machine as your production grows, just add product transfers from R.A Jones.
- High operating efficiency: optimized uptime and low total cost of ownership mean high ROI.
- Production speeds up to 170 cartons per minute.
- Wide carton size range:
  - Minimum 5" L X 1" W X 4.25" D
  - Maximum 10" L X 6.5" W X 14" D
